

WE HAVE UNVEILED SOMETHING TO GET EXCITED ABOUT **THE NEW 7800NXL**

Out with the old and in with the new triple wan BiPAC 7800NXL

This new model is an NBN Fibre ready triple-WAN ADSL2+ modem router, an all-in-one performer including Wireless-N 300Mbps, Gigabit Ethernet, and 3G/4G LTE. The BiPAC 7800NXL boasts fast fibre connections via dual-WAN connectivity through a Gigabit Ethernet WAN port with print server support through the USB port. Other features include NAS (Network Attached Storage) with DLNA (Digital Living Network Alliance), FTP (File Transfer Protocol) access and 3G/4G LTE modem hosting to connect to the 3G/4G LTE network for Internet access. The BiPAC 7800NXL replaces Billion's popular 7800N.

For a list of resellers, go to www.billion.com.au
