

7800N now available in **XL**

BIGGER AND BETTER

When you think 7800NXL, just think bigger and better. That's right! This new XL model replaces the 7800N and offers an all-in-one ADSL2+ modem router solution that is NBN-fibre-ready. The BiPAC 7800NXL comes with triple-WAN; including wireless-N 300Mbps, Gigabit Ethernet and 3G/4G LTE. It also boasts fast fibre connections via dual-WAN connectivity through a Gigabit Ethernet WAN port with print server support through the USB port. Other features include NAS (network attached storage) with DLNA (digital living network alliance), FTP (file transfer protocol) access and 3G/4G LTE modem hosting to connect to the 3G/4G LTE network for Internet access.

Remember, when you want 7800N just add XL – the replacement model that is even bigger and better.

FEATURES

- 3G/4G support via USB
- Signal to Noise Ratio (SNR) tweaking for best ADSL speed
- Uses the same powerful Broadcom chipset as 7800V Series
- Gigabit ports and LTE support
- NAT Table size: 32,640
